PROFILE

Passionate software engineer with a knack for problem-solving and creating quality software solutions. Experienced in full-stack and mobile application development, from requirements analysis to deployment. Proven track record of meeting project deadlines and exceeding client expectations. Dedicated to innovation and delivering software solutions.

EDUCATION

Bachelor's Degree in Software Engineering

Ethiopia, Jimma

Jimma University — JIT (Jimma Institute of Technology)

PROFESSIONAL EXPERIENCE

Mid-Level MERN Stack Developer

04/2025 - Present

Jimma, Ethiopia
(Remote)

- Developed and maintained MERN stack web applications, ensuring functionality and scalability.
- Implemented RESTful APIs and integrated third-party services to enhance application functionality.
- Conducted thorough testing, debugging, and implemented security measures for high-quality deliverables

05/2025 – 04/2026
Jimma, and Remote

Advanced Flutter Developer

- Yai Technologies — Specialized in mobile application development using Flutter and Dart.
- Eglelion System Technologies (Internship) — Built Delala App with secure authentication, Chapa payment integration, and role-based dashboards.
- Debo Engineering (Mobile Application Developer) — Developed DeboERP Mobile enterprise application with modules for letter management, attendance tracking, performance evaluation, and appointment booking.

PROJECTS

AgriLink app 🔗

Mobile application connecting farmers and agricultural stakeholders. Built with Flutter and Dart, featuring real-time market updates, crop management tools, and direct communication channels between buyers and sellers.

Delala App 🔗

Digital marketplace mobile app for buying and selling properties, vehicles, and electronics. Developed with Flutter, featuring secure authentication, Chappa payment integration, advanced search, and role-based dashboards.

Debo ERP Mobile App 🔗

ERP application designed to streamline enterprise operations and workflow management. Features role-based access, real-time data handling, and efficient business process management.

E-Edir 🔗

Full-stack communal fund management platform that digitizes traditional Edir operations and paper-based workflows. Features secure authentication, member and Edir management, payment integration, and streamlined community coordination.

SKILLS

Programming Languages

Java, C++, Python, Dart, JavaScript, Typescript

Frameworks

Flutter, React, React Native, Next.js and Nodejs.

Databases

MongoDB, MySQL and Firebase.

Version Control

Git and GitHub

Soft Skills

Excellent communication and collaboration skills, with the ability to work effectively in team environments. Strong problem-solving and adaptability skills, demonstrated through successful project deliveries and handling challenging situations.

Testing

mockito and integration_test.

Deployment

Vercel, Netlify and Google Play Store.

CERTIFICATES

- Advanced Flutter: Build Enterprise-Ready Apps – Udemy, 2026
- Introduction to Networks (70hr) – JU Cisco Networking Academy, Jan 2025
- Introduction to Cyber Security – JU Cisco Networking Academy, Feb 2025
- Certificate of Mastery: Advanced Mobile App Development – Yai Technologies, 2026
- Switching, Routing and Wireless Essentials (70hr) – JU Cisco Networking Academy, Jan 2025
- IoT Fundamentals: IoT Security – JU Cisco Networking Academy, Mar 2024
- Internship Certificate – Eglelion System Technologies, 2025
- Enterprise Networking, Security, and Automation (70hr) – JU Cisco Networking Academy, Jan 2025
- Introduction to Deep Learning – Artificial Intelligence Center (Jimma University Institute of Technology), 2025
